## Career Objective

Motivated and disciplined Cybersecurity student with a strong foundation in ethical hacking, system security, and digital forensics. An active NCC cadet with leadership skills and a passion for protecting digital environments. Seeking opportunities to apply technical skills and contribute to cybersecurity initiatives.

## Educational Background

Bachelor of Technology (B. Tech) – Cybersecurity & Digital Forensics
VIT Bhopal University
Expected Graduation: 2026

Senior Secondary (12th Grade) – Science (CBSE/State Board)
XYZ, City – 2022

Secondary School (10th Grade)
ABCD, City – 2020

## Certifications

- Introduction to Cyber Security – Cisco Networking Academy

- Google Cybersecurity Certificate (In Progress / Completed)

- Basics of Ethical Hacking – Udemy

- NCC "B" Certificate

## Technical Skills

- Cybersecurity Tools: Burp Suite, OWASP ZAP, Wireshark, Autopsy
- Languages: Python, HTML, CSS, JavaScript (Basics)
- Security Skills: Cryptography, Network Security, Penetration Testing
- Platforms: Linux (Kali), Windows
- Others: Git, Command Line, Digital Forensics

## Projects

1. Web Vulnerability Scanner
Built a custom scanner using Python and OWASP ZAP API to detect SQL Injection and Cross-Site Scripting (XSS) in web apps.

2. Email Monitoring system
Developed an Email Monitoring System to detect suspicious email patterns, unauthorized data sharing, and phishing attempts in real-time.

## NCC (National Cadet Corps)

- Active NCC Cadet with participation in camps and community service
- Trained in discipline, leadership, and basic survival techniques
- Participated in National/State-Level NCC Camps (if any)

## Hobbies & Interests

- Ethical hacking challenges on TryHackMe/HackTheBox
- Swimming
- Volunteering for awareness on Cyber Hygiene
- Boxing
- Sports and fitness (due to NCC background)
